

How much will I get?

Make yourself comfortable, give us a few details and let the Zurich Retirement Planner:

- work out how much your retirement savings might be worth when you retire
- compare the different retirement options

[Calculate now](#)

Before you start

It would help to gather the following information:

- Your current yearly income (your employer may call this your 'pensionable salary')
- The current value of any Zurich or other retirement savings plans
- The amount of any payments you or your employer are making

The Zurich retirement planner is designed to let you compare the different options – treat it as a guide. What you get back in reality could be more or less than the figures provided.

The Zurich retirement planner:

[Expand all](#)

- Provides you with estimates
- Is not suitable if your retirement savings are in a final salary pension scheme
- Doesn't take into account any state pension entitlement
- Assumes an investment strategy
- May not be suitable if you are no longer resident in the UK

It's in your interest to read the Zurich Retirement Planner's full range of assumptions
